Fire Underwriter Survey recently completed an assessment of the Township of Chapple fire defenses for the primary purpose of fire insurance grading and classification.

With the assessment it was determined that the Dwelling Protection Grades and Commercial Grades (Public Fire Protection Classification) have improved. The village is now recognized as a Hydrant Protected Area/Fire Hall Protected Area and the south east boundary of the Municipality is now covered by an Automatic Aid Agreement.

Residents in these areas are urged to contact their insurance broker to determine if they are eligible for a lower premium on their insurance policies.

Mapping for the Commercial Lines Insurance – Public Fire Protection Classification, and Personal Lines Insurance – Dwelling Protection Grades can be found on the municipality’s website at <http://www.chapple.on.ca/fire-department-0>
