SALE OF LAND BY PUBLIC TENDER THE CORPORATION OF THE TOWNSHIP OF CHAPPLE

Take Notice that tenders are invited for the purchase of the lands described below and will be received until 3:00 p.m. local time on October 11, 2017, at the Township of Chapple Municipal Office, 54 Barwick Road, Barwick Ontario.

The tenders will then be opened in public on the same day as soon as possible after 3:00 p.m. at the Township of Chapple Municipal Office, 54 Barwick Road, Barwick.

Description of Land:

Roll No. 59 24 010 000 11500 0000; PIN 56040-0102(LT); Parcel 4871 Section Rainy River; Part Section 26 Shenston designated Part 1, Plan 48R3503; Chapple; File No. 16-01

Minimum Tender Amount: \$7,528.80

Tenders must be submitted in the prescribed form and must be accompanied by a deposit in the form of a money order or of a bank draft or cheque certified by a bank or trust corporation payable to the municipality and representing at least 20 per cent of the tender amount.

Except as follows, the municipality makes no representation regarding the title to, crown interests or any other matters relating to the land to be sold. Responsibility for ascertaining these matters rests with the potential purchasers.

This sale is governed by the Municipal Act, 2001 and the Municipal Tax Sales Rules made under that Act.

The successful purchaser will be required to pay the amount tendered plus accumulated taxes, HST if applicable and the relevant land transfer tax.

The municipality has no obligation to provide vacant possession to the successful purchaser.

For further information regarding this sale and a copy of the prescribed form of tender, visit: www.OntarioTaxSales.ca or if no internet access available, contact:

The Township of Chapple is currently accepting proposals for the development of commercial or industrial businesses on the municipal property located approximately one (1) km east of the village of Barwick on the north side of Hwy 11. If sufficient interest is received and the project is determined to be feasible, Council would proceed with a Phase I and funding applications to develop serviced lots. For further information please contact the Chapple Municipal Office at (807) 487-2354 or [chapple@tbaytel.net](mailto:chapple@tbaytel.net).

**The Facts about HEATING SAFETY**

A Time For A Check Up: Protect your family against fire and deadly carbon monoxide. Have your heating system examined annually by a qualified service technician.

Watch Your Ashes: Allow for ashes from your woodstove or fireplace to cool before emptying them into a metal container with a tight-fitting lid. Keep the container outside.

1) Have all chimneys cleaned and inspected every year. 2) Have your heating system inspected annually by a qualified service technician. 3) Install a CO alarm to alert you to the presence of deadly carbon monoxide gas. 4) Give space heaters space: keep space heaters at least one metre (3 feet) away from anything that can burn, including curtains, upholstery, clothing and people. 5) Protect your home from sparks. Use a fire screen around the fireplace. 6) Watch for smoke coming into the room. This could indicate a blockage in the chimney or a faulty damper control mechanism. 7) Allow the ashes from your woodstove or fireplace to cool before emptying them into a metal container with a tight-fitting lid. Keep the container outside.

**FACT: CREOSOTE IS A MAJOR CAUSE OF CHIMNEY FIRES. HAVE CHIMNEYS AND FLUE PIPES CLEANED REGULARLY!**

The Office of the Fire Marshal

**THUNDERSTORMS**

Thunder storms are accompanied by lightning and may produce damaging weather such as tornadoes, hail, high winds and heavy rain. In Canada, lightning kills on average 9 to 10 people and seriously injures 92 to 164 people a year. When you are building your family emergency plan review and discuss these safety tips with your entire household to make sure everyone understands what to do. Make your Emergency Preparedness Action Plan. **General Tips: If you are indoors:**

- Stay indoors when a thunderstorm strikes. Remain indoors for at least 30 minutes since the last rumble of thunder to ensure the storm has moved well away from your location.
- Strong winds and large hailstones can shatter windows. Stay away from all windows, skylights and doors.
- Stay away from running water inside a house. Lightning can enter a house through pipes and plumbing. This means no showers or baths during a thunderstorm. **If you are outdoors:**
- if you hear thunder, then lightning is close enough to be dangerous. Move immediately to a place of shelter. Go to a well-constructed, enclosed building. Small, open structures do not provide protection from lightning.
- Avoid water, high ground, isolated trees, picnic shelters and power lines.
- There isn't a place outside that is safe during a thunderstorm. Make every effort to get into a solid shelter or metal-topped vehicle. If neither are available, find a low-lying area away from tall, pointy, isolated objects, crouch down and put your feet together. Do not lie down. Cover your ears to reduce the threat of hearing damage from thunder. **Prepare Now:**
- Review and discuss the safety tips with your entire household to make sure everyone understands what to do in a severe thunderstorm.
- Designate a safe place in your home away from windows, skylights and glass doors for household members to gather during a severe storm.
- Remove existing rotting trees and branches that could fall and cause injury or damage during a severe thunderstorm.
- Make a list of items to secure or bring inside during a storm such as garbage cans and lawn furniture.
- Use a surge protector (a special safety plug unit available at discount and hardware stores) to protect electrical items throughout your home. This will automatically shut down the electricity if lightning strikes, to prevent fires and damage to individual household items.
