Agricultural/Industrial Burn Plan

Clearing Land? Here are the rules for making your windrows/piles.

- 1.** Avoid piles in muskeg.
- 2.** Eliminate as much dirt from the roots & do not pack windrows tight (air circulating around the windrows/piles is necessary to aid in combustion & subsequent consumption of fuels).
- 3.** Ensure windrows are no longer than 30 meters (100 ft) & no wider than 3 meters (10 ft).
- 4.** Ensure that a minimum of a 10 meters (33 ft) break is created between the ends of each row.
- 5.** Ensure that all windrows/piles are 25 meters (75 ft) from standing timber & 35 meters (115 ft) from any structure.
- 6.** Ensure that a minimum of 15 meters (50 ft) bare mineral soil guard is created around all windrows/piles.
- 7.** All other rules are to be followed.
- 8.** All burn plan applications must be approved by the Fire Chief before any piles are to be lit. Burn Permit applications are found on our website <https://www.chapple.on.ca/> For more information contact the Municipal Office @ 487-2354 or the Fire Chief Tyrell Griffith @ 271-0111

**Chapple Fire and Emergency Service is
looking to expand our Fire Team!**

Did you know that not everyone on the Fire Department is
expected to go into a burning building?

**Benefits of joining our team
include:**

- NFPA Certified Training opportunities
- DZ Licensing
- First Aid and CPR training
- Being there for others when they need us the most!

Chapple Fire needs:

- DZ Drivers
- Pump Operators
- Small Engines Personnel
- On Scene Safety Watch
- On Scene Accountability Person
- Public Education
- Auxiliary

You only need to be interested in helping
the community.
We'll take care of the training!

**Call 807-271-0111
and ask about what you can do to
help your neighbours!**

**Winter storms kill more Canadians than tornadoes,
thunderstorms, lightning, floods, and hurricanes**

Hazard Information

Heavy snowfall and ice can
make the roads treacherous
and interrupt the power supply.

You can check local weather
and forecasts online.

Interactive maps, road
conditions and driving
information is available through
Traveller Information Services.

Check with your local school
board for information on
cancelled classes and buses.

Check with your local
municipality for information on
snow removal services and
special rules in place during a
snow emergency.

Safety Tips

- Avoid unnecessary travel
- Wear layers of lightweight clothing, mittens and a hat (preferably one that covers your ears)
- Wear waterproof, insulated boots to keep your feet warm and dry and to keep from slipping on ice and snow
- Regularly check for frostbite — numbness or white areas on your face and body (ears, nose, cheeks, hands, and feet in particular)
- Avoid overexertion when shoveling snow by taking frequent breaks
- Bring pets inside and move livestock to sheltered areas with non-frozen drinking water

Prepare Now! Take the following steps so you and your family are prepared in the event of an emergency
Winterize your home to retain heat: insulate walls and attics; caulk or weather-strip doors and windows; install storm windows or cover windows with plastic; Get heating equipment and chimneys cleaned and inspected once a year; Add extra blankets and warm clothes to your emergency survival kit.
